

Environmental Policy

Haz Environmental is a dedicated Waste Management and Industrial Cleaning provider.

We recognise our responsibilities to protect the environment and endeavour to continually improve our environmental performance and service to our customers.

The scope of our environmental management system encompasses all of our business activities and services, this includes the physical boundaries of the premises and facilities we operate.

We are committed to: -

- ❑ Complying with applicable environmental legislation, regulations and other compliance obligations and to work in partnership with our customers to enable them to also meet their legal obligations.
- ❑ Understanding the context of our organisation in relation to external and internal issues, which may affect the intended outcomes of our EMS.
- ❑ Continually improving our environmental management system to enhance environmental performance.
- ❑ Look for opportunities for eliminating waste at source for re-using, recycling and recovering wastes.
- ❑ Managing our own environmental impacts to minimise the risk of pollution and protect the environment.
- ❑ Identifying and regularly reviewing the environmental aspects resulting from our activities.
- ❑ Setting environmental objectives and targets that will be reviewed annually by top management.
- ❑ Establishing and maintaining a training programme that incorporates environmental awareness and competency for all our employees. We will also seek to educate our customers understanding of the impacts their waste has on the environment.
- ❑ Ensuring our contractors and suppliers understand their environmental responsibilities and legal obligations.
- ❑ Ensuring the Companies Environmental Policy is communicated and is freely available to all interested parties including employees, customers, contractors, and suppliers and to the general public.

A handwritten signature in blue ink, appearing to read "G Perks".
